Regulatory Response and Commitment
Control Program April Status
Report Update

Gentlemen:

Our letter of April 14, 1983, (2CANØ48304) provided a status report on the activities associated with our Regulatory Response and Commitment Control Program. We reported that we planned to have the Licensing procedures upgrade completed by May 1, 1983.

As discussed with Mr. Bill Seidle of your staff on Monday, April 25, 1983, we have experienced a delay in the completion of this activity due to the continuing support requirements of the ANO-1 outage. We agreed to revise this commitment to complete the Licensing procedures upgrade by May 27, 1983. A revised schedule is attached to reflect this change.

Very truly yours,

John R. Marshall
