Subject: Amendment to export license XSNM-02001 for
export of LEU to West Germany

Refer.: Our letter of January 12, 1983 - AG/03/25

Dear Mr. Griffin,

This is to increase the quantity of LEU to be
exported under license XSNM-02001.

The new amounts of material are 1,513 kg of ura-
nium²³⁵ contained in 44,500 kg of total uranium (instead
of 995 kg of U²³⁵ contained in 29,246 kg of total ura-
nium per our Jan. 12, 1983 letter).

The other data contained in our letter of Jan. 12,
1983, remain unchanged.

Please note that the BIBLIS power plant, in which
above material will be irradiated, is a facility owned
by the final consignee RWE, Essen, West Germany, autho-
rized by our letter of January 12, 1983.
