Dear Bill:

Subject: In the Matter of
Application of Texas Utilities
Generating Company, et al. for
An Operating License for
Comanche Peak Steam Electric Station
Units #1 and #2 (CPSES)
Docket Nos. 50-445 and 50-446

Stipulations

As we discussed on 6/3/83, we have run copies of your April 27, 1983, letter summarizing Applicants' responses to CASE's requests for documents set forth in our letter of March 11, 1983, regarding the SIT Report (I&E Report 82-26/82-14). We are attaching a copy for you; it has been marked as CASE Exhibit 846.

Also, as we discussed, please review the attached copy of CASE Exhibit 837, which details five items which we want in the record. These answers are included in your April 27, 1983, letter, but as we explained, the initial requests are not repeated in your April 27 letter. Our being able to submit CASE Exhibit 837 will allow us to avoid having to submit the entire listing attached to our March 11 letter, which we feel would unduly burden the record.

We are also enclosing a copy of what we have typed so far of the stipulations we have reached with the NRC Staff, for your review. We are still working with the Staff on wording for a few additional items which the Staff was close to agreement on with a few changes in wording. We will be in contact with you about these as soon as we complete our agreement with the Staff on them.

Sincerely,

CASE (Citizens Association for Sound Energy)
