JUN 6 1983

Docket No. STN 50-483

Mr. D. F. Schnell  
 Vice President - Nuclear  
 Union Electric Company  
 Post Office Box 149  
 St. Louis, Missouri 63166

Dear Mr. Schnell:

This letter is in response to Standardized Nuclear Unit Power Plant System (SNUPPS) letter of June 1, 1981 and Union Electric Company's letter dated December 3, 1982 regarding primary and backup Emergency Operations Facilities (EOF) for the Callaway Plant, Unit 1. The June 1, 1981 letter states that a backup EOF would not be necessary; however, your December 3, 1982 letter identifies a backup EOF located 25 miles from the plant site at the Missouri State Emergency Management Agency (SEMA) and Emergency Operations Center (EOC) in Jefferson City, Missouri.

You are hereby advised that the Commission finds acceptable your position with regard to the location of both your backup and primary EOF. This approval only applies to the location of these facilities. Approval of the other features of these facilities as well as the approval of your other Emergency Response Facilities (ERFs) will be determined during a post implementation appraisal to be conducted at the Callaway Plant by the NRC when all your ERFs have been completed.

Sincerely,
