Toledo Edison Company  
ATTN: Mr. Richard P. Crouse  
Vice President  
Nuclear  
Edison Plaza

Toledo, OH 43652

Gentlemen:

This refers to the routine safety inspection conducted by Messrs. T. A. Peebles and W. G. Rogers of this office on February 1 through April 29, 1983 of activities at Davis-Besse Nuclear Power Station authorized by NRC Operating License No. NPF-3 and to the discussion of our findings with Mr. T. Murray at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in non-compliance with NRC requirements, as specified in the enclosed Appendix. A written response is required.

With regard to Item 2 of the Notice of Violation, we would like to point out that prior to returning equipment to normal operating status, the causes of malfunctions should be promptly determined, evaluated and documented. Failed equipment should be analyzed to determine whether a replacement component of the same type can be expected to perform its function reliably. Paragraph 6 describes an event where adequate and timely steps were not taken to analyze a component failure. Therefore, in addition to your response to this item of noncompliance, please provide a response to the questions contained in Paragraph 6.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter, the enclosures, and your response to this letter will be placed in the NRC's Public Document Room. If this report contains any information that you (or your contractors) believe to be exempt from disclosure under 10 CFR 9.5(a)(4), it is necessary that you (a) notify this office by telephone within ten (10) days from the date of this letter of your intention to file a request for withholding; and (b) submit within twenty-five (25) days from the
