METROPOLITAN EDISON COMPANY
READING, PENNSYLVANIA

A1-7

FEB. 4, 1966

On December 3, 1965, we forwarded you portions of "Design Criteria - Nuclear Power Plant for Metropolitan Edison Co. Reading, Pa." On December 30, 1965 you forwarded various comments on this preliminary copy which we have since discussed with the customer in Reading.

This Design Criteria has now been completed and one copy is being forwarded directly to you from Metropolitan Edison Co. with additional copies being forwarded to New York Sales, Dr. J. Coughlin in Barberton and, at his suggestion, D. W. Montgomery, Lynchburg, Va.

We, as well as other manufacturers, are being asked to review this Design Criteria in depth offering any suggestions or comments for improvement. We will then be called upon to discuss it with the Metropolitan Edison Steering Committee, probably during the week of February 20. This date will be firmed up as soon as possible.

C. T. Smith and the writer now plan to be in Barberton on Friday, February 11, to review this material.
