

**New York Power  
Authority**

**J. Phillip Bayne**  
Executive Vice President  
Nuclear Generation

June 1, 1983  
JPB-106-83

Mr. James R. Tourtellotte  
Chairman, Regulatory Reform Task Force  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

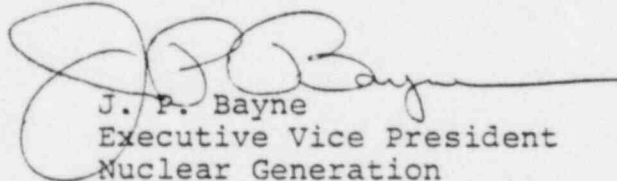

Subject: Nuclear Power Plant Backfitting  
and Regulatory Impact Costs

Dear Mr. Tourtellotte:

Thank you for your letter of February 8, 1983 on the subject item requesting backfitting cost analyses on our nuclear facilities. Such an analysis was done for the Indian Point 3 facility in connection with the on-going Special Proceedings. Mr. George Wilverding of the Power Authority mentioned to you during the recent AIF Conference on Legal Issues in Boston that this analysis had been a Confidential Attorney Work Product, which has been released to the intervenors. I am now able to release this to you and a copy is attached.

I hope this can be of use to you in your efforts to establish a reasonable NRC backfitting policy. If the Power Authority can be of any help to you in the future in your efforts, please feel free to write me.

Very truly yours,

  
J. P. Bayne  
Executive Vice President  
Nuclear Generation
