EFFECTIVE
DATE July 29, 1979

AMENDED
DATE

to direct the licensed activities of licensed operators at, and to manipulate all controls of, the following facility or facilities:

Three Mile Island Nuclear Station, Unit No. 1, Facility License No. DPR-50,
Unit No. 2, Facility License No. DPR-73,
located at Middletown, Pennsylvania

This license is subject to the provisions of Section 55.51 of the U.S. Nuclear Regulatory Commission's regulations, Title 10, Code of Federal Regulations, Chapter I, Part 55, with the same force and effect as if fully set forth herein.

In directing the licensed activities of licensed operators and in manipulating the controls of the above facility or facilities the licensee shall observe the operating procedures and other conditions specified in the facility license which authorizes operation of the facility or facilities, and shall comply with the following conditions:

- ☒ The licensee shall wear corrective eyeglasses while performing the activities for which he is licensed.
- ☒ This license is limited to the core shutdown operating condition as defined in the facility technical specifications. Further, NRC examination will be required to establish its effectiveness for other operating conditions. The issuance of this license is based upon examination of the licensee's qualifications, including the representations and information contained in his application for license filed under the docket number indicated above.

Unless sooner terminated, this license shall expire two years from the effective date.

A copy of this license has been made available to the facility licensee indicated below.
