Docket No. 50-328

Tennessee Valley Authority
ATTN: Mr. H. G. Parris
Manager of Power
500A Chestnut Street, Tower II
Chattanooga, Tennessee 37401

Gentlemen:

We have received a copy of your application dated June 16, 1983, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application proposed changes to license conditions regarding (1) post-accident sampling, (2) additional accident monitoring instrumentation, (3) instruments for inadequate core cooling, and (4) upgrade of emergency support facilities for the Sequoyah Nuclear Plant, Unit No. 2. A Class III fee (\$4,000) was remitted with your request pursuant to 10 CFR 170.22.

Based on information provided by the ONRR staff as the result of their preliminary review of your application, it has been determined that a Class IV fee (\$12,300) is appropriate for your request since the review will involve consideration of four safety issues. Therefore, you are requested to remit the additional sum of \$8,300 to this office. If the ONRR staff's final review of your request reveals that this fee is not appropriate, you will be notified and any necessary adjustments will be made.

Sincerely,

Original Signed by:
