Date: Thursday, January 23, 2020 2:04:53 PM

Mrs. Ullrich,

The letter is still in the chancellor's office. At the time it is signed, a copy will be sent to you by email.

I am very sorry for the delay, but after the earthquakes that affected the island during the beginning of the year, this week administrative tasks were restored on campus.

During the last two weeks, the campus was evaluated and there was no earthquake damage on it.

Best regards,

Lymari Orellana

Ms. Orellana,

We have not yet received a letter from the chancellor's office. If you could check to see if it were mailed, that would be helpful.

If it has not been mailed yet, after it is signed, you could scan the signed letter as a pdf document and send it to me by email. But it must be signed first.

Thank you very much,

Betsy Ullrich

Docket No. 030-01183

Control No. 617063

Ms. Orellana,

I have a letter dated September 3, 2019, [received October 29, 2019] from Dr. Luis Ferrao, Chancellor of UPR, naming you as the proposed Radiation Safety Officer. I am sending you the email, because I don't have an email address for anyone else at this time. The letter also provided update of the authorized users named on the license and requested to add Dr. Orestes Quesada as an authorized user.

I do need a bit more information

1. You have been an authorized use listed on the license for some time. Please describe any experience you have performing the duties of the RSO as described in the letter, where that experience was gained, and the length of time of that experience.
2. For Dr. Quesada, please provide a description of the radiation safety training (topics covered, duration of training, where the training was done and by whom) as well as a brief description of the types and quantities of radioactive materials Dr. Quesada has experience in handling, the duration of the experience and where that experience was gained.

Please provide the response in a letter signed by a representative of management. The letter may be mailed as a signed hard copy, or you may scan the letter into pdf format and transmit a copy of the signed letter by email.

If you have any questions, please feel free to contact me.

Thank your for your attention in this matter,

Betsy
