In the Matter of
Philadelphia Electric Company
(Limerick Generating Station, Units 1 and 2)
Docket Nos. 50-352 and 50-353

Gentlemen,

Please find enclosed Limerick Ecology Action's
SARA/EROL section 7 contentions.

The filing does not include contentions drafted by
the City of Philadelphia and coordinated for filing through
LEA, due to the fact that the Applicant offered to obtain
a 30-day extension for filing for the City (which the Board
apparently granted). I understand the purpose for obtaining
the extension was to give the Applicant the opportunity to
negotiate the City's contentions, in order to avoid litigation.

The Board should note that LEA's contentions 6 and 7
would have been filed jointly, had the City elected to file.
Thus LEA expects to participate in any negotiations on
those contentions. I request the Board to urge the Applicant
to negotiate with LEA on its other SARA contentions as well.
I do not think it serves anyone's interests other than the
Applicant's to put a wedge between parties with similar
interests by treating them separately.

Sincerely,

Judith A. Dorsey
Counsel for LEA
