

THE ADVISORY PANEL FOR THE DECONTAMINATION OF
THREE MILE ISLAND UNIT 2

83 SEP -6 P5:12

OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

August 30, 1983

Chairman Nunzio Palladino
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Chairman Palladino:

As you know, the NRC Advisory Panel for the Decontamination of TMI Unit II will be meeting with the Commissioners on Friday, September 16, 1983. It appears that there will be 9 of the 12 panel members attending the meeting.

Some of the items we wish to discuss with the Commissioners are as follows:

- A. The panel wishes to break into small committees with a specific assignment. The question is a two-fold question. Would sub-committees be permitted? And, if travel is necessary, would travel be reimbursable?
- B. There are topics such as, worker exposure, the Polar Crane and others that are beyond the expertise of the membership of the committee. When we grapple with an issue that requires a special expertise, would funding be available for the committee to engage the services of an outside "expert" to advise the committee on the particular subject?
- C. We wish to apprise the Commissioners of the continued high-level stress and concern by our local citizens in the TMI area.
- D. We wish to inquire as to the OI report on the Parks, King and Gischel allegations. We were advised the report would be completed by the time this letter is being written and have not yet heard of the final report being submitted.
- E. The Hartman investigation by the justice department-- can it be accelerated?
- F. Financing of the clean up.

Chairman Nunzio Palladino

The panel intends to hold a brief meeting before our scheduled meeting with the Commissioners and reserve the right to add some items to this very tentative agenda.

Should you have any questions concerning the above, please do not hesitate to contact me.

Sincerely yours,

John E. Minnich
John E. Minnich

Chairman,
Advisory Panel for the Decontamination
of Three Mile Island, Unit 2
