January 27, 2020

Ms. Edwina Butler-Wolfe, Governor
Absentee-Shawnee Tribe of Oklahoma
2025 S. Gordon Cooper Dr.
Shawnee, OK 74801

SUBJECT: NOTICE OF AVAILABILITY OF THE FINAL SUPPLEMENTAL
ENVIRONMENTAL IMPACT STATEMENT FOR SUBSEQUENT LICENSE
RENEWAL OF PEACH BOTTOM ATOMIC POWER STATION, UNITS 2 AND 3

Dear Governor Butler-Wolfe:

The U.S. Nuclear Regulatory Commission (NRC) has completed the enclosed final NUREG-1437, Supplement 10, Second Renewal, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants: Regarding Subsequent License Renewal for Peach Bottom Atomic Power Station, Units 2 and 3." The final Supplemental Environmental Impact Statement (SEIS) is being issued in accordance with the National Environmental Policy Act of 1969, as part of the NRC's process to decide whether to issue a renewed operating license to Exelon Generation Company, LLC for Peach Bottom Atomic Power Station, Units 2 and 3.

In the final SEIS, the NRC staff determined that the adverse environmental impacts of subsequent license renewal for Peach Bottom Atomic Power Station, Units 2 and 3 are not so great that preserving the option of license renewal for energy planning decision-makers would be unreasonable. Under the provisions of the National Historic Preservation Act of 1966, the NRC staff determined that subsequent license renewal for Peach Bottom Atomic Power Station, Units 2 and 3 would not adversely affect any known historic properties. The final SEIS will accompany the final Safety Evaluation Report to be considered in the Commission's license renewal decision making process. A copy of the final SEIS is enclosed. The final SEIS is also available through the web-based version of the NRC's Agencywide Documents Access and Management System (ADAMS) at <https://www.nrc.gov/reading-rm/adams.html> under ADAMS Accession No. ML20023A937.

If you have any questions regarding this matter, please contact Ms. Nancy Martinez, Environmental Scientist, at 630-829-9734 or by e-mail at Nancy.Martinez@nrc.gov.

Sincerely,

/RA/

January 27, 2020

Ms. Shannon Holsey, President
Stockbridge-Munsee Community
N8476 MohHeConNuck Road
Bowler, WI 54416

SUBJECT: NOTICE OF AVAILABILITY OF THE FINAL SUPPLEMENTAL
ENVIRONMENTAL IMPACT STATEMENT FOR SUBSEQUENT LICENSE
RENEWAL OF PEACH BOTTOM ATOMIC POWER STATION, UNITS 2 AND 3

Dear President Holsey:

The U.S. Nuclear Regulatory Commission (NRC) has completed the enclosed final NUREG-1437, Supplement 10, Second Renewal, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants: Regarding Subsequent License Renewal for Peach Bottom Atomic Power Station, Units 2 and 3." The final Supplemental Environmental Impact Statement (SEIS) is being issued in accordance with the National Environmental Policy Act of 1969, as part of the NRC's process to decide whether to issue a renewed operating license to Exelon Generation Company, LLC for Peach Bottom Atomic Power Station, Units 2 and 3.

In the final SEIS, the NRC staff determined that the adverse environmental impacts of subsequent license renewal for Peach Bottom Atomic Power Station, Units 2 and 3 are not so great that preserving the option of license renewal for energy planning decision-makers would be unreasonable. Under the provisions of the National Historic Preservation Act of 1966, the NRC staff determined that subsequent license renewal for Peach Bottom Atomic Power Station, Units 2 and 3 would not adversely affect any known historic properties. The final SEIS will accompany the final Safety Evaluation Report to be considered in the Commission's license renewal decision making process. A copy of the final SEIS is enclosed. The final SEIS is also available through the web-based version of the NRC's Agencywide Documents Access and Management System (ADAMS) at <https://www.nrc.gov/reading-rm/adams.html> under ADAMS Accession No. ML20023A937.

If you have any questions regarding this matter, please contact Ms. Nancy Martinez, Environmental Scientist, at 630-829-9734 or by e-mail at Nancy.Martinez@nrc.gov.

Sincerely,

/RA/
