for Reactor Projects
Directorate of Licensing
U S Atomic Energy Commission
Washington, DC 20545

Mr Giambusso:

MONTICELLO NUCLEAR GENERATING PLANT E-5979
Postulated Pipe Failures Outside Containment

Our letter of January 5, 1973 committed to furnishing a detailed analysis of the consequences of postulated pipe failures outside of the containment structure. This information would be responsive to your request letter of December 18, 1972 and we had scheduled our reporting to be submitted to you by June 15, 1973.

Due to the extremely heavy workload imposed on the Architect-Engineer doing this study work for us, our submission date has been rescheduled to July 15, 1973. The above information is in confirmation of a telephone conversation with your Mr J J Shea on May 22.

Yours very truly,

E C Ward
