

Gentlemen:

If there is going to be a licensing hearing for the Enrico Fermi Plant #2, I would like to be allowed to participate in it, for in the past years I have participated in all public hearings and meetings concerning Fermi II.

10/17/78

In as much as I work at the Fermi II and live in the close vicinity of the plant I have a story to tell which I would like to see made a matter of record.

Acknowledged by card. *NLR*

Thank you,
Frank Kuron
