Re: In the Matter of Union Electric Company
(Callaway Plant, Units 1 and 2),
Construction Permits Nos. CPPR-139
and CPPR-140

Gentlemen:

In "Union Electric's Brief In Support Of Its Exceptions To The Initial Decision", reference was made in the margin (p. 14 n.12) to the Powerplant and Industrial Fuel Use Act of 1978, which had already been passed by Congress at the time our brief was submitted and was awaiting the signature of President Carter. This is to advise you that this legislation, which is Public Law 96-311, was signed into law on November 9, 1978.

In addition, the date on which the President signed the NRC authorization bill (S.1564) is incorrectly shown in our brief to be November 1, 1978 (see p. 16). The correct date is November 9, 1978. This new legislation is designated as Public Law 96-311.

Respectfully yours,

W. Bradford Reynolds

Wm. Bradford Reynolds
Counsel for Union Electric Company
