MONTHLY OPERATIONS REPORT

Dear Mr. DeYoung:

In accordance with Technical Specification 6.9.1.c for the H. B. Robinson Steam Electric Plant, Unit No. 2, Carolina Power and Light Company herewith submits the report of operation statistics and shutdown experience for the month of August, 1982. This report is late due to administrative oversight, and corrective actions have been taken to prevent this from occurring in the future.

Additionally, it should be noted that the July 1982 monthly operations report inadvertently omitted the number of spent fuel assemblies in the spent fuel pool. Therefore, the enclosed Operating Data Report for July 1982 should replace the original report in its entirety.

Very truly yours,

R. B. Starkey, Jr.
