Mr. A. Victor Morisi
 Manager, Nuclear Operations
 Support Department
 Boston Edison Company
 25 Braintree Hill Park
 Rockdale Street
 Braintree, MA 02184

Dear Mr. Morisi:

Subject: NUREG-0737, Action Item II.K.3.27 "Common Reference Level"

Re: Pilgrim Nuclear Power Station

By letters dated February 5, 1982 and June 9, 1982 you proposed to perform the actions requested by our October 20, 1981 letter in conjunction with your control room design review (NUREG-0737 Action Item I.D.1) and certain other action items. You maintain that integration of the subject action item, action item I.D.1 and the other items will eliminate any potential operator confusion that may result from changing water level instrumentation one time because of the subject action item and then again because of the control room design review.

We consider your proposed approach to be reasonable. Therefore, since you have committed to perform the actions requested by our October 30, 1981 letter, and since we have previously approved your existing configuration as an acceptable interim measure, we consider the subject item complete for your facility.

Sincerely,

Original signed by
 D. B. Vassallo
