Gentlemen:

Reference (a) contained a discussion of the design of our proposed Auxiliary Feedwater (AFW) System modifications, including copies of the piping and instrument diagrams (P&ID's) for the AFW System and the logic diagrams for the Auxiliary Feedwater Actuation System (AFAS). These diagrams have since been revised to reflect the current design of the systems. Enclosed are copies of the latest revisions of the above diagrams. These copies should be used by your staff reviewers when evaluating our proposed AFW Technical Specifications, as submitted by Reference (b).

Very truly yours,

*R. C. L. Olson for RCLD.*
