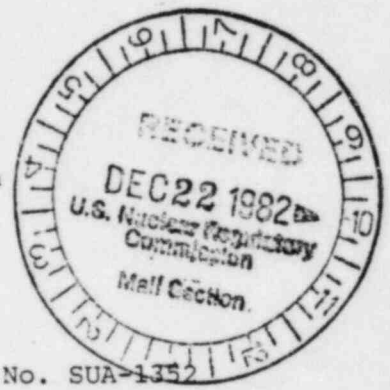
December 16, 1982



Mr. John Linehan, Section Leader
Uranium Recovery Licensing Branch
Division of Waste Management
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sir:

Re: Docket No. 040-08714
Source Material License No. SUA-1352

Cleveland-Cliffs requests that Source Material License No. SUA-1352 be amended to include the following provisions:

1) Approval of the attached Decommissioning Plan for the Collins Draw Uranium Mine.

2) Approval to ship and dispose of wastes in Petrotomics licensed uranium mill tailings impoundment.

3) Approval to turn over the process building to the lessor of the land, provided the building meets the conditions for release for unrestricted use.

A check for $760 is enc'osed for the Minor, Safety and Environmental fee.

Please find attached the Decommissioning Plan for the Collins Draw Uranium Solution Mine. The plan has been written to follow Annex C, the Guideline for Decontamination. Groundwater restoration approval by federal and state agencies is expected in early 1983. Your promp. review of this plan will be greatly appreciated. If you have any questions, please contact me personally at your earliest convenience.

Respectfully submitted,

The Cleveland-Cliffs Iron Company
