SUBJECT: POSSIBLE SABOTAGE - SALEM NUCLEAR PLANT

After being advised of the most recent amendment to the Atomic Energy Act pertaining to sabotage of nuclear facilities which is codified as 42 USC 2284, Kurzweil said that he would like to have a copy of the amendment for his review. He said that after his review of the amendment, he may want to see a copy of the Inspection and Enforcement investigation report concerning this incident, but he does not want a copy now. It was agreed that a copy of the amendment would be forwarded.
