Gentlemen:

We have received the enclosed Federal Emergency Management Agency (FEMA) letter and associated exercise report dated January 17, 1991, transmitting the FEMA Region V report for the June 6, 1990, exercise at the LaSalle County Station. This was a full participation exercise for the State of Illinois and the Counties of Grundy and LaSalle.

FEMA identified no deficiencies, but three items were identified as Areas Requiring Corrective Action, in the performance of offsite agencies during the exercise. Based on its review of the exercise, FEMA concluded that offsite radiological emergency preparedness is adequate to provide reasonable assurance that appropriate offsite measures can be taken to protect the health and safety of the public living in the vicinity of the LaSalle County Station.

Sincerely,

L. Robert Greger, Chief  
Reactor Programs Branch
