Re: In the Matter of Tennessee Valley Authority (Sequoyah) Nuclear  
Plant Units 1 and 2), Docket Nos. 50-327-OLA and 50-328-OLA  
(Technical Specification Changes), ASLBP No. 91-635-07-OLA

Dear Judge Bloch:

This is to confirm my conversation with you on the afternoon of  
February 25, 1991. Because the February 6, 1991, letter to the  
Nuclear Regulatory Commission from the petitioner, James T.  
Springfield, had not been served on TVA, you agreed to grant TVA  
until March 12, 1991, to file its answer to the petitioner's  
request. Though I was thereafter unable to speak personally with  
Mr. Springfield about my conversation with you, I spoke with the  
International Brotherhood of Electrical Workers (IBEW) International  
Representative, Jerry Duncan, who indicated that although  
Mr. Springfield was out of town he would pass the information about  
the due date to Mr. Springfield upon his return. I have since  
spoken with Mr. Springfield's wife and have given her the same  
information.

Enclosed is a copy of the Tennessee Valley Authority's notice of  
appearance in the above-captioned proceeding. The original and  
two copies are being provided to the Secretary of the Commission.  
Service of the notice has been effected as evidenced by the attached  
certificate of service.

Sincerely,

Douglas R. Nichols  
Assistant General Counsel
