Gentlemen:

Subject: Inspection No. 030-29120/90-01

This refers to your letter dated January 16, 1991, in response to our letter dated December 19, 1990.

Thank you for informing us of the corrective and preventive actions documented in your letter in regard to Item A. These actions will be examined during a future inspection of your licensed program.

However with regard to Item B you must formally make an application seeking NRC approval of yourself as the new radiation safety officer. This is accomplished by means of an amendment to the license at which time your qualifications will be reviewed. You are reminded that NRC requires such amendment requests to be processed prior to implementation of changes to your licensed activities.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:
