Dear Mr. Callen:

Thank you for your letter of March 3, 1994, complimenting NRC's Shelly Schwartz on his personal conduct, his performance as a member of the Office of State Program's staff, and his support of open communications between State regulators and the NRC. It is always a pleasure to know that members of the NRC staff have performed particularly well, and I appreciate your taking the time to inform me of your high regard for Shelly's efforts to improve communications between the NRC and state representatives. Since Shelly has officially retired, I am taking the liberty of forwarding your letter to his home address so that he can better appreciate the extent to which those outside the NRC valued his commitment to public service.

Although Shelly will be difficult to replace, I want to assure you that my Commission colleagues and I as well as the NRC staff will continue to foster cooperation with state regulatory organizations in our common efforts to protect the public health and safety.

Sincerely,

Ivan Selin
