Gentlemen:

We have received a copy of your application for extension of the completion date of Construction Permit No. CPPR-87. This application is notarized June 2, 1981, and was filed with the Office of Nuclear Reactor Regulation (ONRR) by your attorney's letter dated June 12, 1981. Applications for permit extensions are subject to the fee requirements of 10 CFR 170.22, and fees should be determined and submitted in accordance with 10 CFR 170.12(c).

Based on information provided by the ONRR staff as a result of a preliminary review of your application, it has been determined that this application will involve an administrative consideration. Therefore, a Class II fee of \$1,200 is applicable. It is requested that this sum be remitted to our office. If the ONRR staff's final analysis of your application reveals that this fee is incorrect, you will be notified and an adjustment will be made.

Sincerely,

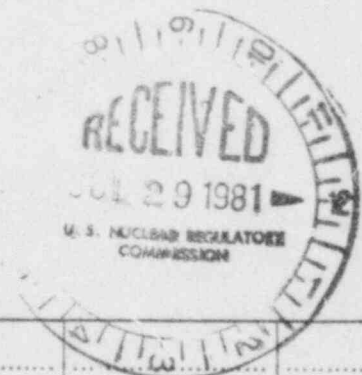

Original Signed by:
