

MOKELUMNE RIVER ASSOCIATION
204 Court Street
Jackson, California 95642

July 30, 1981

United States Nuclear Regulatory Commission
Washington, D. C. 20555

Gentlemen:

Subject: Diablo Canyon Nuclear Power Plant

The Mokelumne River Association is made up of representatives from public agencies, local government, State and Federal agencies, private business, and private citizens (see attached list). It is concerned with the proper use and development of the resources and land along the Mokelumne River, including generation of hydro-electric power.

At its regular meeting held July 10, 1981, the Association, among other things, discussed Pacific Gas and Electric Company's electric system capacity as compared to the load on its system. The result is a spinning reserve lower than prudent practice dictates during periods of peak demand.

The Mokelumne River Association hereby urges your Commission to issue the license enabling PGandE Company to operate its Diablo Canyon Nuclear Power Plant. The motion authorizing this position carried with 11 ayes, 0 noes, 4 absent, and PGandE abstaining.

Very truly yours,

David T. Walker
David T. Walker
