Gentlemen:

Subject: Report Nos. 50-321/80-50 and 50-366/80-50

This refers to the special inspection conducted by R. A. Brown of this office on December 10-11, 1980, of activities authorized by NRC Operating License Nos. DPR-57 and NPF-5 for the Hatch facility. Our preliminary findings were discussed with M. Manry at the conclusion of the inspection.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

The enforcement action related to this inspection was addressed to the Georgia Power Company in a letter from the Director of the Office of Inspection and Enforcement dated April 7, 1981.

In accordance with Section 2.790 of the NRC "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room. If this report contains any information that you believe to be proprietary, it is necessary that you make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must include the basis for claiming that the information is proprietary and the proprietary information should be contained in a separate part of the document. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

R.C. Lewis
R. C. Lewis, Acting Director
Division of Resident and
Reactor Project Inspection
