FREEDOM OF INFORMATION
ACT REQUEST

FOIA-81-269
Rec'd 7-16-81

U. S. Nuclear Regulatory
Commission
Washington, DC 20555

Attention Freedom of Information Act Request Officer

Gentlemen:

This is a request for documents which bear on the managerial and technical assessment of performance of the NRC's document control system installed by the TERA Corporation for the Office of Administration of USNRC.

I am requesting documents which describe how the system "fits in" to the NRC working environment. This would include studies and descriptive memoranda which discuss the frequency of system use, relative performance of the system pertinent to user needs, plans for future development, cost/benefit analyses, user surveys, etc.

This request for documents would include any documents which support, refute or amplify claims made in Inside NRC, Vol. 3, No. 5, March 1981 and Vol. 2, No. 24, December 1980. These articles dealt with NRC and GAO concern with the usefulness of the new document control system.

I will pay any copy, shipping or other charges required to fill this request.

Sincerely,

Glenn B. Humphress
