Dear Mr. Keppler:

This is to confirm my telephone report utilizing the red phone at 1530 hours on August 17, 1981, and subsequent notification to your Region III Inspector, Mr. E. Swanson. The purpose of this call was to advise the Nuclear Regulatory Commission that a seismic inadequacy existed in addition to that reported on August 14, 1981, concerning the structural anchorage for certain pieces of equipment comprising the Unit 1 and 2 Electrical Power Systems.

A followup report will be submitted by August 30, 1981.

Sincerely,

D.V. Shaller  
Plant Manager
