UNITED STATES NUCLEAR REGULATORY COMMISSIONDOCKET NOS. 50-413 AND 50-414DUKE POWER COMPANYNOTICE OF RECEIPT OF ANTITRUST INFORMATIONACCOMPANYING OPERATING LICENSE APPLICATION

The Duke Power Company has submitted antitrust information in connection with the owner's plans to operate two pressurized water reactors located in York County, South Carolina. The reactors have been designated as Catawba Nuclear Station, Units 1 and 2. The data submitted contain antitrust information for review pursuant to NRC Regulatory Guide 9.3 necessary to determine whether there have been any significant changes since the completion of the antitrust review at the construction permit stage.

On completion of staff antitrust review of the above-named application, the Director of Nuclear Reactor Regulation will issue an initial finding as to whether there have been "significant changes" under section 105c(2) of the Act. A copy of this finding will be published in the Federal Register and will be sent to the Washington and local public document rooms and to those persons providing comments or information in response to this notice. If the initial finding concludes that there have not been any significant changes, request for reevaluation may be submitted for a period of 60 days after the date of the Federal Register notice. The results of any reevaluation that is requested will also be published in the Federal Register and copies sent to the Washington and local public document rooms.

A copy of the general information portion of the application for operating licenses and the antitrust information submitted is available for public examination and copying for a fee at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D. C., and at the local public document room at the York County Library, 325 South Oakland Avenue, Rock Hill, South Carolina 29730.

Any person who desires additional information regarding the matter covered by this notice or who wishes to have his views considered with respect to significant changes related to antitrust matters which have occurred in the licensee's activities since the construction permit antitrust review for the above-named plant should submit such requests for information or views to the U.S. Nuclear Regulatory Commission, Washington, D. C. 20555, Attention: Chief, Utility Finance Branch, Office of Nuclear Reactor Regulation, on or before November 20, 1981.

Dated at Bethesda, Maryland, this 31st day of August 1981.

FOR THE NUCLEAR REGULATORY COMMISSION
