Dear Mr. Haynes:

Subject: Oyster Creek Nuclear Generating Station
Docket No. 50-219
IE Bulletin 81-02, Supplement 1

The subject bulletin requested that Oyster Creek supply certain information related to Westinghouse valves within a 45 day period. Unfortunately, it has not been possible to comply with this request within the allotted time due to increased work load resulting from other operational concerns. Consequently, we will need additional time to complete our response. We expect to submit this information by October 30, 1981.

If you should have any questions, please contact Mr. Michael Laggart at (609) 693-6932.

Very truly yours,

J. T. Carroll, Jr.
