MEMORANDUM FOR: William J. Dircks, Executive Director  
for Operations

FROM: Samuel J. Chilk, Secretary

SUBJECT: SECY-81-453 - DIRECTOR'S DENIAL OF 2.206  
RELIEF (IN THE MATTER OF TENNESSEE  
VALLEY AUTHORITY)

Reference is made to SECY memorandum, to the General Counsel,  
subject as above, dated August 27, 1981.

The Commission while agreeing that no review of the subject  
decision is appropriate, believes that the record of the  
Director's decision with respect to the tornado strike  
probability should be clarified as suggested in OPE's memorandum  
of August 14, 1981 (copy attached for ready reference).

The Office of Nuclear Reactor Regulation was informed of  
this action by telephone on August 26, 1981.

It is requested that the staff provide the basis for the  
tornado strike probability to the Office of the Secretary by  
c.o.b. September 25, 1981.
