MEMORANDUM FOR: WMUR Staff

FROM: Ross A. Scarano, Chief
Uranium Recovery Licensing Branch
Division of Waste Management

SUBJECT: NRC OFFICIAL DOCKET FILE FOR SALT LAKE CITY UMRAP
INACTIVE URANIUM MILL SITE (VITRO SITE)

The subject Docket file cannot be located. Its prompt retrieval is extremely important for completeness of our own legal Docket files on the UMRAP sites. Also, the Department of Justice urgently needs a copy of the file in order to complete their study of potential legal liabilities of past owners of the Vitro site. You are therefore requested to survey all records and documents in your possession to the extent necessary for you to confirm that you do, or do not have this file.

Results of your search must be reported to Betty Fisher by Friday, October 9.

Sincerely, 151

Ross A. Scarano, Chief
Uranium Recovery Licensing Branch
Division of Waste Management
