Mr. Darrell G. Eisenhut
Director, Division of Licensing
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Crystal River Unit 3
Docket No. 50-302
Operating License No. DPR-72
Privacy and Proprietary Material
in Emergency Plans

Dear Mr. Eisenhut:

Generic Letter No. 81-27, dated July 9, 1981, requested Florida Power
Corporation to notify you of any information submitted with our Emer-
gency Plan implementing procedures which contain privacy or proprietary
information that should be deleted before release to the public document
room. Florida Power Corporation hereby provides notification that cer-
tain information previously submitted should be withheld from public
disclosure and, therefore, not released to the public document rooms.

Our Emergency Plan implementing procedures were submitted to you by
letter dated February 27, 1981. Included in our submittal was a copy of
Emergency Plan Implementing Procedure EM-206, "Emergency Plan Roster and
Notification," Revision 18, dated January 28, 1981, which contains
private telephone numbers and addresses of officials who would be noti-
fied during an emergency.

Disclosure of such information would clearly represent unwarranted
invasion of privacy for these persons and could have a detrimental
effect upon emergency response as suggested in Generic Letter 81-27.
Florida Power Corporation, therefore, requests that you delete Enclo-
sures 1 and 2 of EM-206 before placing our procedure into the public
document room.

5.10

In the future pages which contain privacy or proprietary material will be identified as such. As appropriate, specific requests will be made at that time to withhold such information from public disclosure.

If you require further information on this matter, please contact this office.

Very truly yours,

William A. Cross
Manager, Nuclear Licensing

Cross(F01)D1-2
