Mr. Boyce H. Grier
Director
Nuclear Regulatory Commission, Region I
Office of Inspection and Enforcement
631 Park Avenue
King of Prussia, Pennsylvania 19406

Dear Boyce:

As you know, our firm represents Philadelphia Electric Company concerning the Limerick Generating Station. As you also know, we expect the case to be contested. For this reason, it is particularly important that we keep abreast of all developments in the proceeding.

I am writing you to request that as counsel I be sent copies of all inspection reports along with any letter. I understand it is Region I's position not to send reports until the section 2.790 clearance, together with the reply from the company, has been received. However, since we are counsel and must advise the company on any section 2.790 consideration in any event, it would expedite the entire process if we were furnished copies of the reports initially.

Sincerely,

Troy B. Conner, Jr.
