ECCAS CABINET WIRING
FILE 0.4.9.45 SERIAL 13709

References J W Cook letters to J G Keppler, Same Subject

1. Serial 10087, dated December 17, 1980
2. Serial 11502, dated February 27, 1981
3. Serial 12036, dated June 30, 1981

The referenced letters were interim 50.55(e) reports on the ECCAS Cabinet Wiring. This letter is the final report.

As discussed in the last interim report, Bailey Controls has initiated field changes to bring the Midland ECCAS drawings and hardware into agreement. Field Change Authorizations (FCA) 12-89 and 13-81 which were submitted by Babcock & Wilcox have now been implemented by Bailey Controls Service Engineers and Bechtel Electricians. The FCA's will be verified for compliance by the Midland Project Quality Assurance Department to the corrective action required by NCR M-03-1-0-073 (dated November 19, 1980) on the ECCAS wiring errors. A 100% continuity check was performed by the Bailey Controls representative.

Consumers Power Company Quality Assurance will close NCR M-03-1-0-073 after verifying implementation. This is anticipated to be complete by November 6, 1981 at which time the cabinets will be in compliance with their requirements.
