Gentlemen:

Subject: Inspection 30-08985/81-01

This refers to your letter dated July 31, 1981, in response to our letter dated July 7, 1981.

Thank you for informing us of the corrective and preventive actions documented in your letter. These actions will be examined during a future inspection of your licensed program.

Violation A in our inspection report referred specifically to water which was discharged in 1970 and to the fact that the records of this discharge available at the time of the inspection did not include an analysis of the water discharged in terms of microcuries per milliliter or total activity discharged for the year. We agree that further search of your files would be unwarranted.

Your cooperation with us is appreciated.

Sincerely,
