

October 22, 1981

In Reply Refer to:
Docket: 50-267/81-21

Public Service Company of Colorado
ATTN: Mr. O. R. Lee, Vice President
Electric Production
P. O. Box 840
Denver, Colorado 80201

Gentlemen:

This refers to the routine safety inspection conducted by John Sears of the Division of Emergency Preparedness, IE:HQ, and other NRC personnel on August 12 and 13, 1981, of activities at the Fort St. Vrain Nuclear Generating Station authorized by NRC Operating License No. DPR-34, and to the discussion of our findings with Mr. Warembourg and others of your staff at the exit interview.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within the scope of the inspection no violations or deviations were identified.

As was discussed at the exit interview, we are concerned about the lack of facilities at the interim Forward Command Post. As discussed at the exit interview, you agreed to inform the NRC by September 13 as to your plans for upgrading the interim Forward Command Post until the permanent facility is completed. We are in receipt of your September 14, 1981, letter in which you discussed your plans for upgrading the interim Forward Command Post and although we concur with your actions, we should point out that the interim facility does not contain accommodations for women.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you believe to be exempt from this disclosure under 10 CFR 9.5(a)(4), it is necessary that you (a) notify this office by telephone within ten (10) days from the date of this letter of your intention to file a request for withholding and (b) submit 25 days from the date of this letter a written application to this office to withhold such information. Section 2.790(b)(1) requires that any such application must be accompanied by an affidavit executed by the owner of the information which identifies the document or part sought to be withheld, and which contains a full statement of the reasons which are the basis for the claim that the information should be withheld from public disclosure. This section further requires the statement to address with specificity the considerations listed in 10 CFR 2.790(b)(4).

The information sought to be withheld shall be incorporated as far as possible into a separate part of the affidavit. If we do not hear from you in this regard within the specified periods noted above, a copy of this letter and the enclosed inspection report will be placed in the Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,
