Dear Mr. Reichhold:

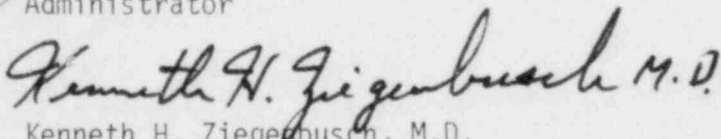

In reference to your inspection conducted at our facility on August 18, 1981, and your letter date September 3, 1981, the following violation has been corrected effective September 4, 1981

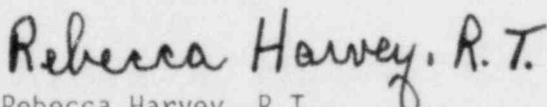

Daily G-M surveys shall be performed on all elution, preparation and injection areas. A record shall be maintained containing the results of these surveys.

To the best of my knowledge and belief, the statements contained herein are true and correct.

Sincerely,

Lysle Schmidt
