

UNITED STATES NUCLEAR REGULATORY COMMISSIONDOCKET NO. 50-409DAIRYLAND POWER COOPERATIVENOTICE OF ISSUANCE OF AMENDMENT TO PROVISIONAL
OPERATING LICENSE

The U. S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 25 to Provisional Operating License No. DPR-45, issued to Dairyland Power Cooperative (the licensee), which revised the Technical Specifications for operation of the La Crosse Boiling Water Reactor (LACBWR) located in Vernon County, Wisconsin. The amendment is effective as of its date of issuance.

The amendment modifies the Technical Specifications to incorporate changes resulting from Lessons Learned as a result of the accident at TMI-2. It also revises the standards used to determine equipment operability.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.
