

UNITED STATES OF AMERICA  
BEFORE THE NUCLEAR REGULATORY COMMISSION

---

Wisconsin Electric Power Company  
POINT BEACH NUCLEAR PLANT UNITS 1 & 2  
Docket Nos. 50-266 and 50-301

REACTOR VESSEL MATERIALS TOUGHNESS  
Generic Task A-11

---

PLEASE TAKE NOTICE that Wisconsin's Environmental Decade, Inc. ("Decade"), hereby requests to be placed on the service list for all documents exchanged by Wisconsin Electric Power Company ("Licensee") and the U. S. Nuclear Regulatory Commission ("Commission") relating to Reactor Vessel Materials Toughness (Generic Task A-11).

The Commission has previously directed that the Decade be placed on the service list for all documents exchanged between it and the Licensee relating to Steam Generator Tube Degradation (Generic Task A-3) due to the growing importance of that issue to the citizens of Wisconsin.

Subsequently, Reactor Vessel Materials Toughness has grown in importance at the Point Beach Nuclear Plant such as to warrant informing citizens of Wisconsin as to developments in this area.

WISCONSIN'S ENVIRONMENTAL DECADE, INC.
