St. Petersburg, Florida 33733

Gentlemen:

We have received a copy of your application dated October 6, 1981, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application requested relief from inservice inspection requirements relating to ultrasonic inspection of the vessel ring forging to support skirt weld for Crystal River Unit No. 3. Fees pursuant to 10 CFR 170.22 were not remitted with your application.

Based on information provided by the ONRR staff as a result of their preliminary review of your application, it has been determined that this application will involve consideration of a single safety issue. Therefore, a Class III (\$4,000) is applicable and this sum should be remitted to our office. If the ONRR staff's final review of your application reveals that this fee is not correct, you will be notified and any necessary adjustment will be made.

Sincerely,

Original Signed by:
