Gentlemen:

Thank you for your letter dated October 22, 1981, informing us of the steps you have taken to correct the noncompliance which we brought to your attention in Inspection Report No. 27-39/81-01 forwarded by our letter dated September 24, 1981. We will examine these matters during a subsequent inspection.

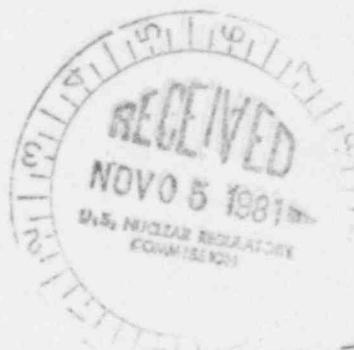

It is our understanding that the sampling stations have been relocated so that they are not prone to silting over, and that if heavy rains do clog the sample stations with silt, a sample will be taken from nearby representative surface water.

Your cooperation with us is appreciated.

Sincerely,

J. A. Hind, Director
Division of Emergency Preparedness
and Operational Support
