Dante B. Fascell
Congress of the United States
House of Representatives
Washington, D.C. 20515

Dear Mr. Fascell,

I hope that your health is improving and that you are
well on the road to a full recovery.

Enclosed you will find a copy of a letter to the Chief
of Licensing in the Low Level Radioactive waste division of
the Nuclear Regulatory Commission requesting information on
a supposed FP&L request for an ammendment to the license for
the Turkey Point facility.

I wonder, Mr. Fascell if you would be kind enough to have
your office request this information, as you always seem to
receive a very thorough and speedy reply. As this information
would be very useful in our testimony at the Florida House of
Representatives Energy Committee hearing on October 21 in
Miami, I am asking you help in obtaining the requested information
in a timely manner.

Thank you for your help in the past on the Turkey Point
problems and the gathering of information on such. As information
is the only tool available to us as private citizens in combatting
potential public problems; I wish to thank you for your continued
help and sympathetic ear.

Please take care of your health. I am looking forward to
meeting with you at some time in the future.

Sincerely,

Jeette Lorien
