

OCT 29 1981

Geauga Community Hospital
ATTN: Mr. Paul Jacobs
President
Chardon, OH 44024

License No. 34-09457-02

Gentlemen:

This refers to the routine safety inspection conducted by Mr. W. J. Slawinski of this office on October 16, 1981, of activities authorized by NRC Byproduct Material License No. 34-09457-02 and to the discussion of our findings with Adrian Krudy, M.D. and Maria Schmidt at the conclusion of the inspection and the telephone conversation with Maria Schmidt on October 21, 1981.

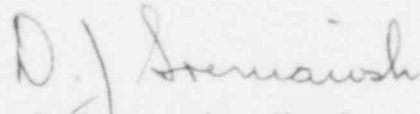

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

During this inspection, certain of your activities appeared to be in non-compliance with NRC requirements, as specified in enclosed Appendix A. A written response, submitted under oath or affirmation, is required.

In addition to the above areas, the inspector examined actions described in your letter dated August 22, 1978, regarding apparent items of noncompliance found during our July 11, 1978 inspection. We have no further questions regarding these matters.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

D. J. Sreniawski, Chief
Materials Radiation Protection
