OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

Dear Chairrerson;

I am a citiaen of California and I am concerned about the re-opening of the Diablo Canyon Nuclear Plant. I have been reading my local newspaper which keeps me informed about the Diablo Canyon Nuclear Plant.

I feel that opening the plant is a dangerous step. The recent findings of the plant unsafe during an earthquake has led to other unsafe findings in the plant. I strongly believe that the plant should be shut-down for the safety of the citizens in California. What is the good of a form of energy if it endangers lives of people and other living things.

I feel that my tax money should be used towards efforts of finding safer forms of energy such as solar energy. I think the Nuclear Regulatory Commision has a moral obligation for the complete safety of the people. Please do not issue a license to start up the Diablo Canyon Flant.

Thank-You,

Wendy A. Andreassen
