In the Matter of
Cincinnati Gas and Electric Company, et al.
(Wm. H. Zimmer Nuclear Power Station, Unit No. 1)
Docket No. 50-358
Emergency Planning

Dear Mr. Perry:

A prehearing conference was held in Cincinnati, Ohio on October 29 and 30, primarily concerned with emergency planning. The Licensing Board gave the intervenors, ZAC and Dr. Fankhauser and Clermont County, Ohio and Mentor, Kentucky until November 12 to make their contentions more specific and certain within the purview of those contentions already before the Board. The more specific the contentions are, the more easily we should be able to address them. I will send you copies of the contentions as soon as we receive them.

I also informed the parties that FEMA would, gratuitously, and within the constraints of available resources, respond to interrogatories. I am enclosing a copy of the transcript of October 29 and 30 for your (FEMA) use. I shall be back in touch with you about the 12th of November.

Sincerely,

Charles A. Barth
Counsel for NRC Staff
