Re: Diablo Canyon Nuclear Power
Plant Safety Report

Dear Dr. Buchanan:

I am responding to the letter you addressed to Administrative Judge Wolf of this office. There is no one report containing an analysis of the question of the safety of the Diablo Project at this juncture. Such an analysis will be set forth when an initial decision is issued in the current operating license hearing. That decision will not be forthcoming until next year. Hearings are yet to be held on several contentions.

In the meantime, you may inspect copies of the material which has been introduced into the record. They are open to public inspection at the
