Leslie Axelrod
1278 6th Ave.
San Francisco, CA 94122

To Whom It May Concern:

I am writing this letter in opposition to nuclear power and the Diablo Canyon Nuclear Power Plant. I feel that this plant, in particular, can never be operated safely while standing on a fault line, not to mention the lack of safe waste dumps and the harmful effects of daily exposure to radiation, however minimal. In addition, this power plant is and will always be a financial burden on PG &E as well as the consumer.

I will do all in my power to stop this plant, and other nuclear monsters from operating. I hope you will also.

Sincerely,

Leslie Axelrod
